Credit Enhancement:	<p>Notes:</p> <ul style="list-style-type: none"> ■ Group A and Group B excess interest, ■ Limited cross-collateralization, ■ Overcollateralization, and ■ AMBAC policy
Excess Interest:	Because the mortgagors are expected to pay more interest on the home equity mortgage loans than is necessary to pay interest on the Notes, along with fees and expenses of the trust each month, there may be excess interest. On each Payment Date this excess interest from the related loan group may be used to protect the Notes against most types of losses by making an additional payment of principal up to the amount of the losses.
Required Overcollateralization Amount:	On the Closing Date, the principal amount of the Notes issued will exceed the principal balance of the Loans by approximately [1.25]%. Beginning on the first payment date, any Excess interest not used to cover current or previously unpaid losses will be paid as principal to the Notes to reduce the initial undercollateralization to zero and to ultimately build to the "Required Overcollateralization Amount" of [1.10]% of the aggregate balance of the Loans as of the Cut-off Date. The Required Overcollateralization Amount may decrease in the future pursuant to the indenture.
Financial Guaranty Insurance Policy:	The financial guaranty insurance policy (the "Policy") will provide 100% coverage of timely payment of interest on the Class A-I note, principal portions of any allocated realized losses, and ultimate payment of principal by the latest stated final maturity date for the Notes. The Policy will not cover any Relief Act Shortfalls nor any reduction in accrued interest due to the application of the Net WAC Rate and is for the benefit of the Noteholders only.
